treatments

EZ XWT PREMIUM DIESEL ADDITIVE

A dirty engine can mean lower mileage and shorter engine life. Conditioning your engine's insides with *EZ XWT Premium Diesel Additive* can result in better mileage, fuel savings, and improved engine performance. (Results may vary.) This product may be used with all diesel fuels.

WARNING: Super concentrated. Intended for use with multiple tanks of diesel fuel. Over-dosing could have detrimental effect on engine performance. Please follow directions for use.

DANGER: Combustible. Contains petroleum distillates. Keep away from heat, sparks and open flame. Use in well-ventilated area and avoid breathing vapor or contact with skin or eyes. Wash exposed skin thoroughly with soap and water. If eye contact, flush thoroughly with water for fifteen minutes and call physician immediately. If swallowed, DO NOT induce vomiting. Call physician immediately.

**DO NOT STORE IN EXTREME HOT OR COLD CONDITIONS.
KEEP OUT OF REACH OF CHILDREN.**
